Git || GitHub	

Projects:

Portfolio (Code)
Created a personal portfolio website with HTML, CSS, and JavaScript to display my projects and skills. Ensured responsive design for all devices. Added interactive elements and animations to improve user experience. (Output)

Pomodoro Timer (chrome Extension) (Code)
Developed a Chrome extension with JavaScript using specific APIs to provide a Pomodoro timer for a 25-minute work/5-minute break cycle, enhancing concentration and reducing distractions.

Search Filter (Code)
Built a React.js search filter for efficient name searches within data, featuring dynamic filtering and real-time updates.

Certificates:

- Javascript (Link)
- Python (Link)
- C (programming) (Link)
- Generative AI (Link)
